

Taxpayer Asks Walker If It Was Worth It

GREEN BAY - I got my property tax bill yesterday. I saved \$30 over last year. Gov. Walker you have trampled the rights of every state employee, you have demonized and demoralize teachers, you have increased class sizes, you have destroyed collective bargaining, you continue battling Affordable Health Care, you have destroyed the right to protest your shenanigans by appointing a Gestapo police chief who will do your bidding. Now that you have the Senate back you will continue to lead Wisconsin back a hundred years, pollute the environment, destroy the public school system with vouchers, and continue your assault on voting rights. But I saved \$30 on my property tax.

Well call me Warren Buffet but I would love to pay that \$30 plus a lot more to allow families and neighbors to talk to each other again, and keep Wisconsin on a progressive track for the future for our workers and our children.
