Will not undo damage from years of sabotage says non-partisan healthcare group. Opening BadgerCare as a public option, and other reforms, are needed to make coverage affordable.

STATEWIDE - Citizen Action of Wisconsin released its preliminary response on Monday to the health care proposals Governor Scott Walker will unveil Wednesday in his State of the State Address.

Walker's sudden interest in addressing the health insurance affordability crisis will not undo the damage his 7 years of sabotage has done, let alone make coverage affordable for most Wisconsinites. In addition, Walker's proposal on pre-existing condition exclusions would still leave many vulnerable to life-threatening insurance discrimination.
