

## Preserving Our Hunting Heritage

Posted on Nov 21, Posted by [Kathleen Vinehout, State Senator 31st District](#) Category [Wisconsin](#)

***Sen Kathleen Vinehout writes about deer hunting and rules related to CWD. Hunters are encouraged to have their harvested deer tested for the disease.***

---

ALMA, WI - Opening weekend of gun deer season, conditions were nearly perfect. The weather was cool, but not too cold. The sun came out and warmed us. A light dusting of snow made it easy to see critters' tracks from the night before.

I saw nine deer opening morning. What an abundance!

By 7:30 a.m., my hunting partner Lisa and I bagged deer. Lisa shot a nice six-point buck and me a tender doe. My husband will be happy with new meat in the freezer. I recalled my husband said we served up the final helpings of last year's stash of venison.

Time for the sportswoman of the family to deliver. No pressure there.
