Rebuilding our state's infrastructure continues.

MADISON — Gov. Tony Evers today announced the Wisconsin State Building Commission approved a total of approximately \$253 million in key projects across the state.

“From ensuring guests have the best experience at any of our amazing state parks to making important updates to serve students, veterans, and agency staff, each of these projects enables the state to meet the needs of residents and visitors alike,” said Gov. Evers. “I’m thankful to members of the Commission for approving projects that serve in the best interest of Wisconsinites across our state, and I look forward to our continued work together investing in our state’s infrastructure.”

Highlights of the Commission’s approved projects include:

- Construction of a new approximately 25,000 GSF Health Services Unit at Stanley

Correctional Institution that will provide much-needed health, psychological, dental, therapeutic, lab, and ancillary services to better meet the needs of the population.

- Construction of a water treatment plant on the Mendota Mental Health Institute campus as Phase 1 of their Water Utility Improvements project that will ensure the reliability of their water supply.
- Replacement of several campground toilet and shower buildings at Mirror Lake State Park and Yellowstone Lake State Park that will greatly improve ADA access, operations, and the overall camping experiences of hundreds of thousands of visitors each year. Building Trust Funds were also released to begin the planning of campground facilities at Lake Wissota State Park.
- Construction of a new Shared Operations Facility that will house Fisheries and Wildlife Management at Richard Bong State Park.
- Replacement of the Mercer Ranger Station with a new 15,000-square-foot facility that will include Fire Response.
- Construction of necessary mechanical system repairs at the Wisconsin Veterans Home at King that are past their useful life.
- Releasing Building Trust Funds to begin the planning and design for several field operation/support facilities for the Wisconsin Department of Natural Resources (DNR) in Dodgeville, Horicon Marsh State Wildlife Area, and Collins Marsh Wildlife Area.

Authorizing a Design/Build alternative delivery method for the construction of the Camp Randall Sports Center Replacement and a Construction Manager delivery method for the construction of the College of Engineering Replacement Building, both at the University of Wisconsin (UW)-Madison.

- Construction of the Albertson Hall replacement facility that will take place on the same site at UW-Stevens Point, creating a new Learning Commons, Student Success Center, and Center for Inclusive Teaching and Learning.
- Authorizing projects for UW-Madison, Parkside, Superior, and Oshkosh as part of the Minor Facilities Renewal Program group enumerations.
- Authorizing 48 maintenance and repair projects for the departments of Administration, Corrections, Health Services, Military Affairs, Natural Resources, Transportation, State Fair Park, and the UW-System, located at various locations in [14 counties](#) across the state.

The Building Commission is chaired by Gov. Evers and made up of the following members:
