Objective to plant 75 million trees by the end of 2030 raised to 100 million. Since 2021, Wisconsin has planted over 32 million trees, which means the state has already achieved over 40 percent of its initial target in just three years.

WAUNAKEE — Gov. Tony Evers, together with the Wisconsin Department of Natural Resources (DNR), in celebration of Earth Day today and Forest Appreciation Week this week, announced that the state is increasing its Trillion Trees Pledge planting goal from planting 75 million trees by the end of 2030 to planting 100 million trees by the end of 2030. Gov. Evers and DNR also released the [Wisconsin Trillion Trees Pledge 2023 Annual Report](#) today, which shows Wisconsin has planted more than 32 million trees since Gov. Evers signed [Executive Order #112](#)

in 2021

, bringing the state more than 40 percent towards its goal just three years into the pledge.

Gov. Evers today signed [Executive Order #221](#), increasing the state's tree-planting goal to 100 million trees by the end of 2030 at an Evers Administration Day of Service event at Governor Nelson State Park, where members of the governor's cabinet and their staff planted trees in celebration of Earth Day as part of the DNR's plans to plant approximately 2,200 seedlings total at Governor Nelson State Park.
