STATEWIDE - We have a [special interview](#) with Wisconsin Election Commissioner (WEC) Mark Thomsen about Trump and the GOP's baseless accusations that every Wisconsin election clerk conducted illegal election activities. Wednesday evening, Republican WEC commissioners asserted, with no evidence, that Milwaukee and Dane County would illegally restrict access to GOP recount observers. Commissioner Dean Knudson said he was willing to throw out all absentee ballots requested online through WEC, which if it happened would likely swing the election to Trump.

Our panel also discusses the escalating COVID-19 crisis in Wisconsin, including Governor Evers' extension of the mask mandate and his new COVID-19 legislation. We welcome Racine Education Association president Angelina Cruz to discuss the very strong letter WEAC leaders sent to Gov. Evers and DHS Secretary designee Andrea Palm asking for clear state standards on in-person schooling. We also talk about other local elected officials who are receiving threats for proposing local health measures that would slow the spread of the pandemic.
