MADISON - Automatic voter registration is in this year's Executive Budget! THANK Governor Tony Evers for prioritizing democracy!

Gov. Tony Evers's budget proposal, released in February, includes funding for automatic voter registration (AVR). By prioritizing AVR, he acknowledges that Wisconsin has the chance to be a national leader in election security, accuracy, and accessibility. [Take action along with member organizations of the Wisconsin Voting Rights Coalition by thanking Gov. Evers for supporting democracy &&&&](#)

Here is a sample message you can send to Gov. Evers to thank him:

Dear Governor Evers,

Thank you so much for including automatic voter registration and other important pro-voter policies in your budget. We know how important voter access is to Wisconsinites across the state. We appreciate your commitment to voter access and making sure every Wisconsinite has the freedom to vote.

Sincerely,
[Your Name]

AVR is the best option for secure and fair election registration that will benefit voters statewide. From rural areas to urban city centers, voter information will be automatically updated and new voters will be automatically registered when people interact with the Department of Motor Vehicles (DMV). This funding will help implement new systems that allow the DMV to transmit secure voter information to the Wisconsin Elections Commission daily. As election officials work to improve the security and integrity of our voting systems, it's time for them to adopt proven policies like automatic voter registration. These updates will make registering to vote easier and more accessible for all voters, particularly those who are frequent movers, live in rural areas, or have disabilities.

Thank Gov. for breaking down barriers to the polls

Gov. Evers' actions should be a model for other states. Wisconsin is one step closer to making voting easier and more accessible for all.

[Gov. Evers](#), and thank him for breaking down barriers to the polls. Let's make [voting easier](#).
