These Republican bills make it harder to vote and need to be stopped.

MADISON - Republicans in the Legislature have passed several nasty anti-voter bills that will soon be on the governor's desk.

Now is the time to tell Governor Evers to veto those bills.

Here are the bill numbers: Senate Bills [203](#) , [204](#) , [205](#) , [210](#) and [212](#) .

These bills make it harder for anyone to vote by absentee ballot, and they erect barriers that are especially steep for seniors, persons with disabilities, poor people, and people who live in big cities.

And while you're at it, **please tell Governor Evers to veto Assembly Bill 369**, which would delay redistricting at the local level. We testified against this bill, and you can read our testimony [here](#):

[No Delay in Local Redistricting!](#)

It's easy to contact the Governor. Just use this online form:

[>>Send the Governor your opinions](#)

Thanks for your civic activism and your defense of our democracy!
