MADISON - I hope you can join us, and the Wisconsin Fair Maps Coalition, on Sept. 27 for our **Fair Maps Lobby Day**

Our two legislative priorities for the day are for legislators to take up the new district maps produced by the People's Maps Commission and to pass legislation ( [AB395/SB389](#) ) that would give us independent, nonpartisan redistricting from now on.

And don't worry: It's not in person. Because of COVID, the Lobby Day will be a virtual event.

The people are with us on this issue, as a recent poll shows:

Another issue we're working really hard on is voting rights. With the Wisconsin Voting Rights Coalition, we're countering the bogus narrative that the election was stolen, and we're campaigning against the anti-voting bills introduced in the Legislature.

Here's a post I wrote about former New Jersey Gov. Christine Todd Whitman warning about the dangers that Wisconsin will turn into Arizona:

And here's a profile we put up of Representative Janel Brandtjen, the leader of what I call the Whack Caucus in the State Assembly:
