MILWAUKEE - New polling from a very trusted source finds the top public economic concern is the high cost of health care and crippling medical bills. What does this mean for the 2024 elections? We also urge the Governor to call a special session on accepting federal Medicaid money and expanding access to healthcare for small businesses and more workers through the BadgerCare Public Option bill already supported by most Democrats.

We review the controversy and the implications of the new state legislative maps signed by Governor Evers earlier this week. What should progressives be focusing on? In other legislative developments, the much discussed regressive tax cut package to disproportionately benefit higher income people is on the Governor's desk. Will he veto? We renew our call for progressive tax package from the Governor and Democrats that forces greedy corporations and the rich to pay their fair share.

California banker and billionaire Eric Hovde is set to challenge U.S. Senator Tammy Baldwin and a Wisconsin fake elector and GOP leader tells '60 Minutes' he was afraid of Trump supporters. We discuss the implications of each.
