We look at Justice Michael Gableman speaks at GOP fundraiser, Citizens United, a new "Influence Peddler of the Month", and Trump & Fascism.

MADISON - It's been a busy week so far.

We got a tip from one of our members that Wisconsin Supreme Court Justice Michael Gableman is no longer even pretending to be nonpartisan, so we checked it out and it's true:

We also noted that GOP legislators are on board with the effort to amend the U.S. Constitution – not to overturn *Citizens United*– but to foolishly require a balanced budget:

For our "Influence Peddler of the Month," we dug up a group you may never even have heard of:

And we just unveiled our handy primer on Fascism and Donald Trump: "A guide for study and resistance." Feel free to share it far and wide:

Thanks for taking a look!
