MADISON - When Scott Walker pulled a 180 on the Lake Michigan Marine Sanctuary, I wondered who got to him. Here's what I found out:

[Koch volunteer of the year helps sink Wisconsin marine sanctuary](#)

As the legislature wraps up, here is some of the dirty work it just did:

[GOP Senate approves landlord dream bill](#)

[Senate approves Sheldon Adelson's anti-BDS bill](#)

And in these next three posts, you can see how the GOP has a tremendous advantage in the money race:

[Corporate contributions to state parties, legislative committees topped \\$1M in 2017](#)

[GOP lawmakers led Dems in fundraising, cash on hand in 2017](#)

[GOP legislative campaign committees outraised Dems 2:1](#)

On the good news front, a grassroots movement is gaining steam here in Wisconsin to reclaim our democracy by tossing out the legal fallacies that corporations are persons and money isn't speech:

[9 Wisconsin communities voting April 3 to overturn *Citizens United*](#)

If you know anyone in these nine communities, please urge them to vote YES on this crucial referendum. [Forward to a Friend](#)

Best,

Matt Rothschild

P.S. **Early voting** has already started, so go to your clerk's office if you can. You can find your clerk and see what is on your ballot [here](#) . And please vote NO on the referendum to get rid of the State Treasurer's office. I'll be writing more on that next week.
Thanks!
