Contact your state legislators and tell them the GOP push to change the date of Wisconsin's presidential primary in 2020 is wrong.

MADISON - I'm outraged by the brazen attempt by Speaker Vos and Majority Leader Fitzgerald to undermine the will of Wisconsin voters.

Especially egregious is their late-inning effort to change the date of Wisconsin's presidential primary in 2020 so that fewer voters would actually turnout for the Wisconsin Supreme Court race. I wrote about that here:

[GOP Push to Change Primary Is a Slap at Wisconsin Voters](#)

Please contact your state legislators by calling the toll-free legislative hotline at 1-800-362-9472 and tell them not to change the date of the presidential primary and for once to put petty politics aside!

If you don't know your legislators, [click here](#) -- opens new window of map of Wisconsin legislative districts where you enter your address in top right search bar.

Here's another thing you might be interested in: Today, we issued a report, "Record spending by outside groups in 2018," which garnered a front-page story in the *Wisconsin State Journal*. You can read that report here:
