We talk about healthcare reform, Medicare For All, BadgerCare, and our efforts to support the Governor as he starts his new administration.

MILWAUKEE - This week progressive Democrats in Congress introduced the gold standard in healthcare reform, Medicare For All, with an impressive 100+ co-sponsors. We talk about why the bill matters despite its dim prospects for immediate passage. Turning to Wisconsin, we look at the official announcement by Governor Tony Evers that he will include BadgerCare Expansion in his first state budget.

Citizen Action members are already fully mobilized to support the Governor, holding news conferences in Appleton and Wausau and hosting 11 watch parties during Thursday night's State Budget Address. Robert educates us on the devastating potential impact of a big push by hospital lobbyists for a "private option" insurance scheme to replace BadgerCare Expansion. We review newly announced state budget provisions, including nonpartisan redistricting, freezing voucher and charter schools, and in-state tuition rates for all — regardless of immigration status. We close the show by exposing a shameful GOP effort to blackball Nicole Safar from Planned Parenthood--a previous guest on Battleground Wisconsin and friend of Citizen Action--from serving in the Department of Health and Human Services.
