From his tax bill that only benefits the wealthy, to his reckless tariffs that are just a tax on working families, many feel he is ignoring our pain.

WISCONSIN - Representatives Ron Kind, Gwen Moore, and Mark Pocan released a joint statement Monday condemning President Trump's tax bill that has done virtually nothing for Wisconsinites all while his trade war with China continues to harm Wisconsin's working families.

Their statement follows.

"Three years in, it's clear that the policies of this President are not working for Wisconsin workers, farmers, business, and families. From his tax bill that only benefits the wealthy, to his reckless tariffs that are just a tax on working families, it's more clear than ever that Trump has failed to keep his word to Wisconsinites.

The Wisconsin State Assembly today passed a resolution condemning President Donald Trump's continued attacks on Wisconsinites and the state's economy. The resolution, introduced by Rep. Mark Parnell (D-Wisconsin), states that the president's actions are "inconsistent with the values of the state of Wisconsin and the principles of the United States Constitution."

The resolution also calls on the president to "stop his attacks on the state's economy and the people of Wisconsin." It further states that the president's actions are "a direct threat to the state's economic future and the well-being of its citizens."

The resolution was passed by a vote of 19-10. It is the latest in a series of resolutions passed by the assembly in response to the president's attacks on the state. The assembly has also passed resolutions condemning the president's attacks on the media, the judiciary, and the intelligence community.

The resolution is a clear statement of the assembly's opposition to the president's actions. It is a call for the president to stop his attacks and to respect the values and principles of the state of Wisconsin and the United States Constitution.
