Well known progressive commentator Matt Rothschild on this week's election.

MADISON - I've never been so mad in my life!

The insistence by Robin Vos and Scott Fitzgerald, aided by the rigged Wisconsin Supreme Court and the reactionary U.S. Supreme Court, to go forward with the election on April 7 in the midst of this pandemic was the most despicable thing I've ever witnessed in politics.

Here's what I wrote about it:

Now that I've told you how I really feel, please let me share another article we posted on the outside spending in the Wisconsin Supreme Court race:

[Special Interest Group Spending at \\$4.4M in Supreme Court Race](#)

And here's the astonishing amount that Marsy's Law in Wisconsin spent on the constitutional amendment about victim's rights, which we opposed:

As you've probably already heard, we had to cancel our 25th anniversary celebration that we were going to hold on April 29, which is a drag because we had some good panels and speakers lined up.
