New Senate Democratic leader likes limited reopening.

MADISON – Senate Democratic Leader Janet Bewley (D-Mason) released the following statement regarding Governor Evers’ actions turning the dial to responsibly further reopen Wisconsin businesses:

“I appreciate Governor Evers’ and DHS Secretary Palm’s steady, pragmatic leadership throughout this public health crisis. With the assistance of public health officials at DHS and economic development partners at WEDC, we can begin to the turn the dial to safely reopen our economy. This has been a difficult time for many families across Wisconsin. As a state we are all in this together and by continuing to practice safety measures and social distancing we can limit the spread of COVID-19.”
