Violence needs to stop, but inaction by State Legislature on Police reform only fueling the fire says Green Bay Senator.

GREEN BAY, WI - For the past few weeks we have seen peaceful protests in our state in response to the killing of George Floyd and other black lives that have been taken before and since his death.

The violence we saw last night in which a state senator and others were assaulted and state property damaged cannot be tolerated. Senator Carpenter is not only a good legislator but a decent man who has supported efforts to end racism, police brutality and reform the way in which we provide public safety. No person should feel unsafe in their community.

The original image was removed and replaced with a placeholder image. The original image was a photograph of Senator Dave Hansen standing in front of the M. B. Eastman Field Atrium. He is wearing a green Green Bay Packers 'Super Bowl XXXI Champions' sweatshirt. In the background, a statue of a man in a trench coat stands on a pedestal, and the building's facade is visible with the text 'M. B. EASTMAN FIELD ATRIUM'.
