

Another Missed Opportunity for the Legislature to lead

Written by Wisconsin Assembly, Ryan Neigbauer

Madison- Rep. Gruszynski (D-Green Bay) released the following statement Monday responding to Assembly Leadership ignoring Governor Evers Call for a Special Session on Police Reform:

“It comes as no surprise that Assembly Leadership chose to abdicate their responsibilities to lead our state. By gaveling in and recessing today’s special session, GOP leadership has decided not to take up these important pieces of legislation and help lead our state. They should stop playing politics and put us to work so we can debate these common sense solutions for policing reform. These bills have already been put into place by numerous states before us -- this is just another missed opportunity to take action.”
