APPLETON - We have a serious election on Tuesday, and we should feel proud to live in America where everyone's vote is important and by law must be counted.

I am voting for **Hillary Clinton**. She is hard working, tough and cannot be bought.

In my lifetime, there's never been a better prepared candidate for President of these United States.

Hillary is the positive change-maker we need.

She will work together with everyone to fix what's broken and improve on what we already have.

Please join me in voting for Hillary tomorrow.
