MADISON - The League educates voters on need for judicial recusal rules and fair voting maps.

### Judicial Recusal

The League co-sponsored a series of three public hearings organized by our friends at [Common Cause in Wisconsin](#)

to explore the need for objective rules requiring a judge to recuse her/himself if a party in a case has been a major campaign supporter. The state Supreme Court earlier this year refused to hold a hearing for a proposal put forth by a group of 56 retired judges to create such rules. Common Cause held the hearings in Green Bay, Milwaukee and Madison to give people a chance to learn about the proposal. The League co-sponsored the forums, in part, because we proposed similar rules in 2009. Wisconsin is one of three states that do not have such rules.
