

New movie by Wisconsin Fair Maps Coalition highlights gerrymandering travesties and gives concrete ways to end them. After you've watched, join special guests for a panel discussion.

MADISON - We hope you and your family are doing all right. In the face of this global health crisis, we are reminded that what we each do has a deep effect not just on our families, friends and neighbors but on the health of our communities, our nation and, ultimately, everyone in the world.

What's true about the coronavirus pandemic is true for our democracy: What we do, and how we work to change public policies, reverberates in our communities and affects our lives in tangible ways. We need to make the lessons of this crisis into a turning point in the fight for a better world that ensures fair and free elections to safeguard the health and well-being of our families, communities and the planet.

In the spirit of creating a better world out of this chaos, we've proclaimed May 24 - May 30 as "Fair Maps Week." As part of the festivities, the Wisconsin Fair Maps Coalition, All On The Line, and the Wisconsin Democracy Campaign are inviting you to view
Slay the Dragon
for free and in the comfort of your own home.

Slay the Dragon is an incredible movie that highlights gerrymandering travesties and gives concrete ways to end them. The movie follows everyday people, outraged by what they see as an attack on the core democratic principle that every person's vote should count equally .
