WISCONSIN - Over \$200 million in savings is available next year thanks to our urging of insurance companies to follow new federal guidelines that will have \$0 deductibles on prescriptions, doctor visits, mental health/substance use disorder treatments and more!

Basically, thanks to your support, we've helped make sure tens of thousands of Wisconsinites will have access to new coverage options ("*Low Out-of-Pocket health plans*") starting in November that will have

\$0 deductibles on prescriptions, doctor visits and more

We have successfully urged five insurance companies to offer these plans next year. A move we estimate will **save Wisconsinites over \$200 million next year** in lower deductibles and out-of-pocket health costs!
