Is the \$7.25 an hour minimum wage enough? Tom Nelson is for raising the minimum wage, Mike Gallagher is not.

GREEN BAY - On Tuesday, Tom released his latest ad, which focuses on the need to raise the minimum wage.

As the election approaches, there's little airtime up for grabs. Our new spot shows that Tom's opponent is clearly on the side of Wall Street and big corporations, not the middle class.

He dismisses the very idea of raising the minimum wage and wants more tax breaks for big corporations. At a time when Congress is already controlled by special interests, we don't need another representative who will serve everyone but the middle class.
