GREEN BAY - Respite Provider Needed by LSS Foster Care Services

Respite providers provide short term care for children in foster care. This could vary from a few hours to the whole weekend.

A respite provider gets information regarding a child who needs respite and the provider decides if they are able to provide respite for that child. There is a social worker on call 24/7 if the respite provider has a question.

A stipend is provided to help cover the costs of providing for the child when they are with you.

For more information contact Andrea Tepp at 715-218-0547 or andrea.tepp@lsswis.org
