

The last push has to start now...

Posted on Dec 10, Posted by [Deb Stover, area resident & voter](#) Category [Wisconsin](#)

The RECALL is going well...but we are not there yet. And you know as well as I do that the fight to end here is going to be harder with Christmas and worse weather coming.

I was wondering if all of us could take one cut turf in a highly democratic area in Green Bay and be responsible for it by next Thursday? We are getting flyers together to drop at doors with office info if no one is there, so this would not be a waste of time if people aren't home. Labor Temple, Teamsters, GBEA will all be on as potential places for folks to stop by and sign, too.

I know my family will be doing the turf with me...although they don't know that yet.

Please let me know if you can't do this or find someone else to do it. Otherwise, we can get the turfs cut!

ALSO, there is a wierd thing happening with people unwilling to sign 'Clay-fish' recall. NO! I don't accept that from people...I tell him she would be a clone of Walker and we have to make sure that she goes, too.
