2.8% in December a 173-year low.

MADISON, Wis. — Thursday, Governor Tony Evers and the Department of Workforce Development [announced](#) that Wisconsin’s unemployment rate reached 2.8% in December — the lowest level in state history as the economy continues to grow under Gov. Evers’ common sense leadership.

In the state’s 173-year history, the unemployment rate has never been lower and Gov. Evers has been hard at work doing what’s right for Wisconsin by creating jobs, filling openings, investing in small businesses, and attracting cutting edge companies. During his first term, Gov. Evers has invested hundreds of millions of dollars in small businesses and workforce development programs that are powering the state’s economic growth and filling job openings across the state.

AP: [Wisconsin unemployment hits record low of 2.8%](#)

Wisconsin's unemployment rate hit a record low of 2.8% in December, after tying the previous low of 3% in November, the state Department of Workforce Development reported Thursday.

The state rate is below the national unemployment rate of 3.9% for December. Wisconsin gained 5,300 private sector jobs in December. The number of people counted as unemployed in Wisconsin, 86,200, also hit a record low, the department reported.
