8th Congressional District Candidate Highlights Opponent's Opposition to ACA and Other Healthcare Protections.

APPLETON, WI – Late Thursday night, the Trump administration filed a brief in support of the lawsuit aimed at overturning the Affordable Care Act which would be detrimental to the millions of Americans it has helped secure healthcare for. An estimated [23 million people](#) could lose coverage and even more would lose the valuable protections that they rely on.

Wisconsin's 8th CD is home to an estimated 20,000 people that would be at risk of losing their insurance and over [300,000 people with pre-existing conditions](#) that would no longer be protected. This is an unconscionable decision at any time but even more so during a global pandemic where we have seen unemployment rates skyrocket. This is the exact moment when we need to be providing our citizens with a leg up and not undercutting their support systems.

Representative Mike Gallagher has opposed the ACA and healthcare protections every chance he has gotten including:

- [Voted to repeal](#) the ACA
- [Voted against the protecting](#) people with pre-existing conditions
- [Voted against authorizing the House to defend](#) the Affordable Care Act from this lawsuit

Stuck Condemns Move to Repeal Affordable Care Act

- [Voted against a bipartisan resolution](#) condemning the administration's support for this lawsuit
- [Voted against an amendment prohibiting](#) Department of Justice funding from being used to support this lawsuit

“I worked for Congressman Kagen during the original passage of the ACA I was able to witness firsthand the profound impact it had on so many hard-working families here in Northeast Wisconsin,” said Representative Stuck. “Attempting to strip away coverage and protections when we are facing a global pandemic and record spikes in unemployment is a craven and gutless move. Making healthcare more difficult to obtain and more financially onerous is the exact opposite of what our constituents need during these uncertain times.”
