Wisconsin Democratic legislators call on President-Elect Donald Trump to support an investigation into Russia's meddling with the presidential election during Tuesday press call. Leaders ask him to keep campaign promise to "Drain the Swamp" in making cabinet choices.

MADISON - Wisconsin Democrats Congresswomen and Rep. JoCasta Zamarripa called on President-Elect Donald Trump to support an investigation into Russia's meddling with the presidential election in a telephone press conference at 11:00 PM CT on Tuesday..

In addition, they will demand Trump honor his campaign promise to "drain the swamp." So far Donald Trump's cabinet choices and the actions of his Republican colleagues shows Trump has no interest in real change.

Just last week, house Republicans, under the leadership of Speaker Paul Ryan, shot down the Buy America Amendment of the Water Resources Development Act that would ensure United States water projects affiliated with the WRDA buy American steel and iron. If Donald Trump is serious about creating jobs here at home, he will denounce the actions of Speaker Ryan as he has done in the past and pick cabinet members who are focused on creating jobs in America, not abroad.
