MADISON - Donald Trump's toxic circus has come to Wisconsin, as his campaign is paying for a recount in Dane and Milwaukee counties that is bound to fail.

He is succeeding, however, in keeping the partisan turmoil boiling in our state, as I write about here:

Also this week, the Wisconsin Supreme Court heard yet another challenge to Gov. Evers's emergency powers during the pandemic, even as we saw record cases – and record deaths – in our state. The case before the court was brought by big Republican donor Jere Fabick, a Caterpillar truck dealer. Fabick, by the way, gave the maximum \$20,000 donation to Justice Rebecca Bradley, who refused to recuse herself, as we noted here:

The norms of democracy and basic decency are flying out the window these days!

But we're doing all we can, here at the Wisconsin Democracy Campaign, to uphold those norms and to flash a spotlight on those who break them.

We can't let them get away with this!

Best,

Matt Rothschild
