MADISON - I watched last night's opening hearing of the Select Committee on Jan. 6 with great anticipation, and by the end, there should have been no doubt in anyone's mind that Donald Trump engaged in the gravest offenses against our democracy and that he deserves to be indicted on a number of crimes.

Here's what I wrote on the hearing:

Please share this widely on social media and please use the hashtag **#Jan6Justice**.

We want to make sure that all your friends and acquaintances are aware of the gravity of Trump's offenses – and of his ongoing whitewashing of Jan. 6 and his continued coddling of the white nationalist movement.

Our democracy depends on Donald Trump being held accountable.
