MILWAUKEE - We debrief Thursday night's final U.S. Senate debate with Robert who attended in person. Next, we bat around the latest MU Law Poll. Does it show a pathway to victory for Mandela within the control of grassroots activists and volunteers? We discuss the significance of the expected Federal Reserve interest rate hike. Is slowing down the economy and spurring layoffs the way to heal the economy? Robert educates us on the We Energies' rate hike and how their corporate power is hurting low income people of color and sabotaging the transition to clean renewable energy. We encourage listeners to attend a Milwaukee rally against the WE Energies rate hike this Saturday, 10/15, at Noon. We close with a special interview with Citizen Action's endorsed State Treasurer candidate, Aaron Richardson, to talk about his campaign.
