MILWAUKEE - We debrief President Biden's State of the Union speech. Does Biden progressive economic agenda represent a break with recent Democratic Presidents? We preview Governor Tony Evers' plan to increase state shared revenue in his state budget he will release next week. We encourage him to follow Biden's lead, and include forcing the ultrarich to pay their fair share. We welcome Citizen Action Northcentral Co-op organizer Joel Lewis to discuss the door canvass in Wausau this Sunday from 10am - 2pm at the Labor Temple. We also discuss the City of Wausau Climate Action planning process. We close the show by welcoming back Tobita Chow from Justice is Global to talk about the balloon kerfuffle and how too many American politicians are fixin' for a dangerous Cold War with China that will unleash more anti-Asian hate.
