MILWAUKEE - We continue to debrief the historic Supreme Court election, including Ron Johnson urging the Republican Party to reduce its reliance on advertising and invest in a ground game and college students voting. We welcome Attorney Matt O'Neill, who represented the Janet Protasiewicz campaign, to discuss the campaign's successful effort to remove from broadcast a false and trashy ad by the WMC. Matt provides his perspective on the ads and the challenges judicial elections face in the current campaign environment. We discuss Judge Kacsmayk's ruling on mifepristone and how Big Pharma enabled these judges. In Wisconsin, Legislative Republicans want to arm school staff and scheme up new barriers and requirements designed to kick people off needed benefits like health care and unemployment insurance.
