MILWAUKEE - After reflecting on the tragic war in Gaza and Israel, we dig into the latest news on the GOP threat to impeach Justice Janet Protasiewicz before she rules on a single case. Will the opposition of two former GOP State Supreme Court Justices who were advised Assembly Speaker Vos deter him from pursing an illegal impeachment? Next, we turn to the on-going drama over the massive public subsidy sought by the ultra-rich owner of the Milwaukee Brewers. State Senator Chris Larson joins us to tell us about pressure Gov. Evers' office is applying to Legislative Democrats to support Robin Vos' stadium plan. We then welcome State Representative Francesca Hong to hear about her experience at the Assembly "public hearing" on the GOP stadium plan last week in West Allis. We also have an indepth conversation about Represenative Hong's new legislation directing school boards to provide instruction on Hmong Americans and Asian Americans in our public schools. Representative Hong talks passionately about her personal experience growing up in a state where many people she encounters don't know her history and culture, showing the critical importance of the bi-partisan legislation.
