Jaeger wants to advocate for sound, responsible environmental laws and policies while Nygren will favor big business.

MARINETTE, WI - In a campaign Facebook post on 07/17/2020, our current 89th Assembly District Representative, John Nygren, claimed he will “work hard to do what’s best and will continue to do so on all issues including water contamination.”

I would like to take a minute to address that claim, as his voting history clearly shows otherwise. In fact, Representative Nygren received a higher rating from Wisconsin Manufacturers and Commerce (100%) than he did from Wisconsin Conservation Voters (0%) and Wisconsin’s chapter of the Sierra Club (0%) for 2017-18 legislative session.
