

Jaeger Wants Republican-led Legislature Back to Work

Written by Karl Jaeger, Jaeger For Wisconsin

Legislature has refused to do their job for five months and are apparently refusing to meet for at least another four, says Assembly District 89 Candidate.

MARINETTE, WI - This is a reminder that John Nygren and the Republican-led Legislature have been adjourned since April, but continue to collect their \$52,999 salary! It's been over 150 days since they've shown up to work, and in that time thousands of people in communities across Wisconsin have gotten sick, lost their jobs, lost their health care, and struggled to support their families.

Our "Representatives" continue to collect their salaries, but they are not showing up to represent us. This makes me angry! We deserve representatives who show up to work!

What have our elected leaders been doing since they were last in full session while 91,304 of us became ill and 1,220 of us have died of COVID-19? We elected them to represent us, and instead they spend their days criticizing the Governor on Facebook from the comfort and safety of their own homes.
