Willfully downplaying the severity of COVID-19, disregarding the safety of our citizens by ignoring science, and fighting every attempt the Governor makes to slow the spread, has helped make Wisconsin the Nation's new COVID-19 hotspot, says Karl Jaeger.

MARINETTE, WI - After months and months of John Nygren and our State Legislature downplaying the severity of COVID-19, willfully disregarding the safety of our citizens by ignoring science, and actively fighting every attempt the Governor has made to slow the spread of this virus, Wisconsin is quickly becoming the Nation's COVID-19 hotspot.

The GOP has not done a single thing to slow the spread of COVID-19. In fact, they have fought the Governor at every step—filing multiple lawsuits to end public health orders and issuing celebratory press releases with each of their hollow “victories”.
