Plan meets the scale and scope needed to properly address the climate crisis says group.

MADISON – Gov. Tony Evers' Clean Energy Plan constitutes the strongest roadmap to climate justice and clean energy in Wisconsin history. Thanks to Gov. Evers' leadership and openness to community input, this Clean Energy Plan provides equitable solutions to economic growth and a cleaner way of life for all people here in Wisconsin.

People from across Wisconsin – with conservation voters at the forefront – powered this incredible achievement. They volunteered hundreds of hours, showed support at events, and successfully lobbied elected leaders to make this plan a reality.

Executive Director Kerry Schumann had this to say about the the Clean Energy Plan:
