Former Wisconsin Supreme Court candidate says Mandela is an experienced leader with strong progressive values.

MILWAUKEE, WI - In my campaign for the Wisconsin Supreme Court, I traveled all over our state. I consistently heard one clear message: Wisconsin's current leadership is taking us backward. Working people and families are hurting, and we need smart trailblazers with a clear vision to give every Wisconsinite a brighter future.

That's why I'm proud to endorse Mandela Barnes for Lieutenant Governor.

Mandela is an experienced leader with strong progressive values. Recent events in Washington and Madison have shown just how important this election is for preserving civil rights, protecting our most vulnerable and standing up for workers.

Mandela has my support, and he needs yours too. Will you join me and make a contribution to his campaign today?

He is the candidate we need to help elect Democrats up and down the ballot and gives us the best chance to defeat Scott Walker this November. Mandela has worked with state legislators and advocacy groups across the nation to score progressive victories and beat back right-wing attacks.

I'm ready for a Lieutenant Governor who knows how to fight against policies that hurt working families and one who will not stop until we have a Wisconsin that works for everyone.
