Wisconsin Values, Priorities Highlighted By The Governor

MADISON – Assembly Democratic Leader Gordon Hintz (D-Oshkosh) released the following statement regarding Governor Tony Evers' first State of the State Address:

“How refreshing to see an agenda that expands health care access, makes a commitment to our public schools, and rebuilds our transportation infrastructure. These are the issues that people across Wisconsin care about, and these are the issues Governor Evers is prioritizing.

“It is a new era for Wisconsin. Governor Evers is focused on restoring our shared Wisconsin values, not his political future. The core principles of the new Administration are the ideals we should all strive for: equity, opportunity, and community. Governor Evers knocked it out of the park tonight.”
